

Paving the way to the agroecology transition in Europe - Update on ALL-Ready's activities

Welcome to the 3rd ALL-Ready Newsletter!

Image: FiBL

Dear reader,

2022 was an exciting year for [ALL-Ready](#) and we are looking forward to everything to come in 2023. With this newsletter we would like to inform you about the latest ALL-Ready activities and publications.

We are happy to announce that the [ALL-Ready Pilot Network](#) is growing and has new members since November. An ALL-Ready Pilot network meeting was held in November in Budapest to further foster the work of the network. Moreover, the first regional workshops were successfully held all over Europe and 4 new factsheets were published.

In order to facilitate the understanding of key concepts and specific terms, ALL-Ready partners have developed a glossary of key terms for Agroecology Living Labs and Research infrastructures for an agroecology transition.

With this, we wish you a nice and relaxing holiday season and a Happy New Year - we are looking forward to 2023 with you!

The ALL-Ready Consortium

Fruitful 3rd ALL-Ready Pilot Network Meeting held in Budapest in November

On 21-23 November 2022 the ALL-Ready Pilot network spent an electrifying, intensive, and extremely productive 2,5 days in Budapest, Hungary in frame of the 3rd pilot network meeting organized by the ALL-Ready partner ÖMKI - Hungarian Research Institute of Organic Agriculture.

Moreover, the ALL-Ready pilot network is growing and we are proud to announce that four new members were confirmed (Emphasis, Hessen Practice

Network, InoFA, Swiss on-farm LL) to be part of the pilot network.

Series of regional workshops “Accelerating Agroecology Transition: Your potential role and benefits of contributing to a European network of Living Labs and Research Infrastructures” across Europe

ALL-Ready successfully hosted 4 half-day workshops across Europe as part of the series of regional workshops “Accelerating Agroecology Transition: Your potential role and benefits of contributing to a European network of Living Labs and Research Infrastructures”.

The main aims of the workshops were: a) to continue the exchange on problems and difficulties that Living Labs and Research Infrastructures are facing in accelerating transitions to agroecology, b) to debate possible solutions to overcome these obstacles, and c) to explore how a future European network could contribute to that.

ALL-Ready Glossary to improve common understanding of key concepts now online

You are wondering what an Agroecology Living Lab is? Or how stakeholder engagement looks like in the context of ALL-Ready? Find out more about the key terms and concepts used in ALL-Ready in the new ALL-Ready glossary, which was developed by the consortium partners to facilitate the understanding of key concepts and terms used in ALL-Ready.

Four new ALL-Ready factsheets published

We are happy to announce that ALL-Ready just published 4 new factsheets. Find out more about the benefits of stakeholder engagement or what Research Infrastructures are and how they can support the agroecology transition. Moreover, the new factsheets will give you insights into the criteria for agroecology Living Labs (LL) and Research Infrastructures (RIs) as well as the added value of a future European network of LLs and RIs.

Upcoming events

19-21 Nov 2022

9th International Congress on Agroecology, Sevilla

ALL-Ready organizes a session at the IX International Agroecology Congress, held between 19-21 January 2023 in Sevilla. The session will discuss the role of agroecology movements in the future European Partnership of Agroecology, Living Labs and Research Infrastructures.

Sept 2023

ALL-Ready final conference, Brussels

ALL-Ready plans a final event in Brussels in September 2023 (date to be confirmed). The event will bring together project partners and stakeholders as well as a broader audience with the aim to share project outcomes and exchange views and knowledge on the future European partnership 'Accelerating farming systems transition: agroecology Living Labs and Research Infrastructures'.

The one-day conference will be divided into different parts, giving insights into Agroecology Living Labs and Research Infrastructures, enabling policy dialogues and providing space for exchange opportunity for national and regional funders of the Partnership. More information and exact date will follow soon.

International Forum on Agroecosystem Living Labs, Montréal

2-6 Oct 2023

Save the date

Co-hosted by ALL-Ready partners Agriculture and Agri-Food Canada and INRAE, this will be a side event within the [Adaptations Futures 2023 conference](#) in Montréal, Canada, from October 2 to 6, 2023.

The Forum will feature discussion panels and parallel sessions of scientific papers to establish state-of-the-art practices, share lessons learned from case studies and

address challenges facing the international agroecosystem living lab community.
Call for Papers coming soon!
